According from the famous English historian "Avro Manhattan", the **Lockheed Martin Corporation** is own and controlled by the Jesuit Order of the so called Holy Roman Catholic Church, hmmm. . . . . ! Very intriguing, well join us and let us check if it is true. We will follow the trail and all of us will be shocked.

Look carefully to the resemblance of the Logo Star of the Lockheed Martin and the Satanic Witchcraft Star. Ask some people who are familiar with witchcraft and they will tell that the Star is Satan himself.

**SANTA CLARA UNIVERSITY**  
THE JESUIT UNIVERSITY IN SILICON VALLEY

Santa Clara University, located in Northern California's Silicon Valley, is a **Jesuit University** with 4,300 undergraduate and 3,100 graduate students. It is recognized by the American Association of Colleges and Universities for its undergraduate programs, and is known nationally for the quality of its graduate and professional schools

### Lockheed Martin gives \$50,000 endowment to SCU for engineering students

**SANTA CLARA, Calif.-Feb. 21, 2002** - Santa Clara University announced today that the **Lockheed Martin Corporation** has given \$50,000 to the University to support annual scholarships for engineering students, especially those from low- and middle-income families.

The endowed scholarship program, named the **Lockheed Martin Corporation Perpetual Fund**, is a gift from Lockheed Martin Space Systems Company - Missile & Space Operations, headquartered in Sunnyvale, Calif. Recipients will be selected based on academic standing and financial need. It is anticipated that the fund will provide partial scholarship assistance to one or more recipients annually. The first student assigned to receive this scholarship will be in Fall 2003. "Lockheed Martin has always been a great supporter of our programs and a good corporate citizen in Silicon Valley," said Terry Shoup, dean of the SCU School of Engineering. "We are pleased and grateful for this new partnership that will benefit our students." This week, Lockheed Martin will announce this scholarship at the 2002 Silicon Valley Engineers Week Banquet (<http://www.svec.org/banquet>), an annual event that attracts over 2,000 Bay Area engineering leaders. The banquet will begin at 5:30 p.m. on Friday, Feb. 22 at the Santa Clara Marriott Hotel.

Lockheed Martin's corporate giving has totaled nearly \$1.5 million to the University since 1967, including over \$700,000 to the engineering school, \$360,000 to the Leavey School of Business, and \$200,000 to the Daly Science Building. Currently, SCU's involvement with the corporation includes research projects with Lockheed Martin engineers and technologists, including satellite/robot automation. Also, Christopher Kitts, SCU engineering adjunct assistant professor, is working with the corporation on a project involving advanced design environments to be used for developing satellite systems. "Lockheed Martin Missiles & Space Operations is very pleased to present this endowed scholarship to Santa Clara University, and to continue our long and prosperous relationship. It is vital to instill enthusiasm for engineering in our young people, and to develop their capabilities and potential in every way," said Tory Bruno, Vice President of Engineering, Missiles and Space Operations. SCU is also one of 15 schools involved in the Lockheed Martin Missiles & Space Focus Schools program, which develops a long-term working partnership with top engineering schools from across the country. Under the program, an engineering director or chief engineer from Lockheed Martin serves as an advisor to a school, providing suggestions on the subjects and expertise that the next generation of spacecraft engineers will need to possess upon graduation.

So the Jesuit Father owns the Lockheed Martin so secretly and declared it as a private corporation.

The wealth and power of the JESUITS throughout the world is awesome.
